Paint

- [Oregon Paint Care](#)

- Oregon paint stewardship program started in July 2010
- 174 drop-off sites in Oregon where the public can take unwanted, leftover paint for recycling year round.
- Most of these sites are at paint retailers (paint, hardware, and home improvement stores) that have volunteered to take back paint, and they are available to any household and business in Oregon
- sites accept house paint and primers, stains, sealers, and clear coatings (e.g., shellac and varnish), but we do not accept aerosols (spray cans), solvents, and products intended for industrial or non-architectural use

Paint

- no charge for dropping off paint at a PaintCare drop-off site.
- funded by the “PaintCare Fee” which is added to the purchase price of paint sold in the state.
- These fees are paid to PaintCare by paint manufacturers, then passed down to retailers and to their customers.

Container Size	Fee
Half pint or smaller	\$0.00
Larger than half pint and smaller than 1 gallon	\$0.35
1 Gallon	\$0.75
Larger than 1 gallon up to 5 gallons	\$1.60

- Albany Police Department
- Lebanon Justice Center

SHARPS

- It is illegal in Oregon to dispose of syringes and other medical sharps in the garbage. The law also requires that medical sharps be disposed of in approved sharps containers, available at many local pharmacies, medical supply stores.

Approved sharps containers are rigid, leak-proof, puncture-resistant, sealed and clearly marked with the bio-hazard symbol. Containers, such as plastic milk jugs and coffee cans, are not safe for sharps storage.

Sharps containers should then be returned to a pharmacy for proper disposal.
