

Financial Strategic Services

Financial Strategic Services work closely with college/unit leadership to consult on strategic business initiatives, budget development, revenue modeling and financial projections, ensuring appropriate internal controls, and helping the college/unit advance its mission and maintain proper stewardship of resources.

Controller's Unit Operations and Service Centers

Service Centers are service oriented units and handle high-volume transactions, support high-quality service provisions from the initial request through completion. This is achieved by effective end-to-end workflow and tracking and measuring key metrics such as turnaround times, accuracy, and customer satisfaction.
