QUARTERLY MANAGEMENT REPORTS
EDUCATION & GENERAL FUNDS
as of March 31, 2017

The following financial reports have been prepared for internal management purposes. A summary of all operating funds and detailed information on revenues, expenses, transfers, and fund balances for the Education and General Program, Statewide Public Services, Auxiliary Enterprises, and Service Departments is provided.

The reports include the FY2017 budget, projected revenues and expenses, and comparisons with FY2016 actual.

All Operating Funds Summary¹

Fiscal Year 2017 Budget & Fiscal Year 2016 Actual

(in thousands)

	Education & General	Statewide Public Services	Auxiliary Enterprises	Service Center Departments	Designated Operations	Royalty Funds	Restricted Funds ²	Total ²
<u>FY2017 Board Approved Budget</u>								
Revenue	\$ 530,647	\$ 87,679	\$ 167,354	\$ 22,234	\$ 23,673	\$ 6,909	\$ 334,306	\$ 1,172,802

¹ Depreciation expense is not included in the Board Approved Budget but is projected and included in internal reports. Fund Additions/(Deductions) to Other funds are not included in the Board Approved Budget, nor are they projected during the year. Year-to-date postings are included in the projection column for this category.

Education and General funds support the general operations of the university and its primary missions of instruction, research, and public service. The major sources of revenue are tuition, state appropriations, and indirect cost recovery from grants and contracts.

Overall, revenue is expected to be up \$15.6 million or 3.0% higher than fiscal year 2016. It is anticipated, revenues from enrollment fees will exceed last year's actual by \$13.6 million or 3.7% due to tuition rate increases and enrollment growth. Areas of greatest increase are in undergraduate and graduate students in Ecampus and at OSU-Cascades. Fee waivers, accounted for as negative revenue, are anticipated to increase by 1.6% or \$575 thousand over last year.

State appropriations are projected to increase \$5.0 million or 4.5% above the actual amount received last year. This is year two of the first biennium using the Student Success and Completion Model (SSCM) as the methodology for distributing state resources to Oregon universities. This outcomes-based model was adopted by the Higher Education Coordinating Commission (HECC) and replaces the Resource Allocation Model (RAM) used previously.

Operating expenditures are anticipated to be \$7.6 million or 7.9% higher than fiscal year 2016. Salaries and Other Payroll Expenses account for \$25.6 million of the increase, due to employee mid-year raises and, new faculty hires resulting from higher student enrollment and an increasing focus on reducing student to faculty ratio for closer alignment with OSU peer institutions. Services and Supplies expense is projected to increase by \$12.2 million over the previous year while Capital Outlay is expected to remain flat.

Fund Balance is expected to stay at roughly the same level as fiscal year 2016 resulting in a balance that is 13.1% of total projected revenue.

FY2017

QUARTER 3

Agricultural Experiment Stations – AES: The Agricultural Experiment Station is the principal agricultural research agency of the State of Oregon. AES conducts research in the agricultural, biological, social, and environmental sciences for the social, economic, and environmental benefit of Oregonians.

Projected FY2017 revenues for AES are expected to increase \$0.72 million or 1.9% compared with the previous year. The state appropriation is expected to increase by \$1.3 million or 4.3% due to the normal allocation cycle of 49% in the first year and 51% in the second year of the biennium. Operating expenses are up by 8.2% as funds spent were for new faculty state legislative hires and their related start-up expenditures. Transfers out are expected to decrease in FY2017 to normal levels as FY2016 included a large transfer associated with Woodhall III Vineyard construction. Overall, the fund balance is expected to decrease slightly from \$4.7 million to \$3.3 million.

Extension Service – EXT: Oregon State University's Extension Service provides education and information based on research to help Oregonians solve problems and develop skills related to youth, family, community, farm, forest, energy, and marine resources. The OSU Extension Service reaches across several colleges and 37 county offices throughout the State of Oregon. Extension funding sources include state appropriations, federal formula funds, county appropriations, and federal grants.

Extension revenues are anticipated to be \$3.3 million more than fiscal year 2016. Areas of funding increase are the state appropriation and other government appropriations. Expenditures are expected to increase by roughly \$3.6 million, mainly due to new positions, salary raises, and increased services and supplies for the new positions hired. Overall, the fund balance is anticipated to increase from \$4.3 million to \$5.7 million.

Forest Research Lab – FRL: The Forest Research Laboratory (FRL) conducts research leading to sustainable forest yields, innovative and efficient use of forest products, and responsible stewardship of Oregon's resources.

The primary source of revenues for FRL is state and federal appropriations and Oregon Harvest Tax. Additional funding provided by HB 5024 will continue to be targeted toward the special research needs as identified under the umbrella of the recently established Institute for Working Forest Landscapes (IWFL). Federal appropriations are expected to be similar to FY2016. The increased taxation rate of \$0.90 per thousand board feet of commercial timber harvested in Oregon will be in place for the entire fiscal year. Harvest levels have shown a slight increase over last year and that will provide an increase in revenue for FRL Oregon Harvest Tax over FY2016. Expenses are expected to be up approximately 5% over FY2016 as new hires establish their research programs.

The Auxiliary Operations are the self-sustaining operations and that primarily serve OSU students, faculty and staff. Budgets reports in the following pages reflect third quarter projections for fiscal year 2017.

Overall, the Auxiliaries are anticipating a \$13.3 million loss from operations in fiscal year 2017. Included in projected operating expenditures are non-cash estimates for depreciation totaling \$15.6 million.

University Housing & Dining Services (UHDS): FY2017 revenues are expected to be up \$4.5M (8.8%) from budgeted levels and up \$4.9M (9.6%) from FY2016 based on three main contributing factors. The first is an unexpected 6% increase in OSU's first year enrollment from FY2016 levels in contrast to an anticipated decline of 5%. This 11 percentage point enrollment swing has resulted in full UHDS housing occupancy and high dining transaction volumes, yielding a considerable revenue increase for UHDS. The second factor is the modest 3% weighted average increase in room and board rates and the third is the continued steady growth in UHDS ancillary business lines.

For FY2017, expenses are expected to increase \$1.3M or 2.5% over budgeted levels primarily due to increased food costs to support the higher dining demand of student residents. Expenses are expected to increase \$4.4M or 9.1% from FY2016 levels due to staffing increases to support the full occupancy, planned UHDS strategic personnel hires, inflationary food costs, other supplies & services expenses, and the increased depreciation stemming from UHDS's increased FY2017 capital asset base.

Projected transfers out (to plant funds for capital renewal) are expected to increase by \$1.9M relative to budget, from \$2.75M to \$4.65M. Consistent with prior years, the projected net change from operations of \$3.55M remains positive. With \$3.55M of net transfers out, the UHDS total change from operations and transfers is now forecast at breakeven (\$1.5M better than budget).

Student Centers and Activities: Total revenue is anticipated to be \$1.2 million or 3.7% higher when compared with the previous year. Student fees are the primary funding source attributable to the projected increase. Student Fees revenues are expected to end 6.2% higher than FY2016 because of a fee increase from FY2016 to FY2017. Sales & Services are projected remain consistent with FY2016 ending results while Other Revenues are seeing a decrease over FY2016 by 72.1% or \$183 thousand. Total Expenses are projected to be \$832 thousand or 2.7% higher than fiscal year 2016. Salaries and OPE remain consistent with FY2016 ending while Services and Supplies expense make up the majority of the \$832 thousand increase in expenses over the prior year. Overall increases in this category are across major accounts from the prior year including increases in utilities expenses, assessments and travel, among others. Fund balances are anticipated to decrease \$1.3 million over the previous year due in part to increased use of reserve funds for capital projects.

Student Health Services: Total revenue is anticipated to be \$224 thousand or 1.3% higher when compared with the previous year. Health fees revenues are anticipated to end the year \$503 thousand or 4.9% higher than FY2016. This is a result of the health fee increase from FY2016 to FY2017. Sales and Services have decreased \$809 thousand from the initial budget projections for FY2017 as the Aetna

insurance premium collections are fully accepted through the provider online with subsequent administration fees paid back to Student Health Services. Overall Sales and Services revenue is projected to end the year \$316 thousand lower in FY2017 over FY2016. Total expenses for Health Services are expected to end \$1.2 million or 6.4% higher than FY2016 ending. Increases are primarily attributable to Salaries and OPE with vacant positions filled in FY2017. Additional increases are from vaccination expenses due to the Meningococcal vaccinations offered through Student Health Services. Fund balances are anticipated to decrease \$1.7 million over the previous year.

Athletics: Total revenue is anticipated to be \$6.4 million or 12.2% higher than fiscal year 2016; the cause is increased ticket sales as well as receipt of employment buyout. Expenses are expected to increase 7.7% in comparison to last year, mainly due to student aid and salaries as well as funding for the Track Team to host PAC 12's.

Transportation Services, Parking Fund: FY2017 Revenue is projected to decrease by \$392 thousand when compared to FY2016 year-end. This is largely because the \$593 thousand in FY2016 non-cash gift revenue (replacement parking assets) will not reoccur in FY2017. However, revenue from Sales & Services is forecasted to increase by 5.7% compared to FY2016. FY2017 Salaries and OPE expenses are projected to be higher than FY2016 year-end due to filling vacant positions. Services and Supplies expenses are projected to increase by approximately 15% over FY2016. This increase allows OSU to capitalize on an opportunity to share a construction proposal with the City of Corvallis to repair and pave parking lots at a reduced rate. The expenses also include reserve funding of design work for future parking lot maintenance projects. Transfers Out at \$2.4 million are greater than FY2016, due to a \$2 million transfer to a plant fund for new parking lot construction that was originally forecast for transfer in FY2018, as well as capital expenses for the replacement of shuttle buses.

Cascades Campus: Student Activities, Housing & Dining and Parking Services Funds:

(Comparative data is not available for FY2016 as the Housing & Dining and Parking Services funds are newly established for FY2017.)

This report is capturing all auxiliaries on the OSU-Cascades campus, which include Student Activities, the new Housing and Dining auxiliary and the new Parking auxiliary.

The Student Activities fund forecast is to be less than budgeted due to lower levels of spending. The forecast for Housing and Dining revenue is slightly less than the approved budget due to a lower occupancy in the residence hall than anticipated. Salaries and OPE are also forecast to be lower due to delay in new staff start later than anticipated and revenue reduction offsets. Services and Supplies forecast is to be less due to a reduction in expenses where possible.

The Parking fund is projected to have less revenue and less expense. In order to maintain a positive fund balance, the initial parking fees were revised, as the parking lots were not being utilized. Additionally, there will be a further reduction in expenses. Paid parking is a cultural shift for OSU-Cascades.

Miscellaneous & Fee Clearing Funds: Revenues are anticipated to increase \$1.2M when compared to FY2016 due primarily to Conference Services projection of a sales increase for FY2017. Operating expenses are expected to increase approximately \$1.2M over the previous year in relation to the increased sales.

¹ Board approved budget does not include depreciation. Numbers are presented in this report for comparison purposes.

Service Centers are financially self-sustaining internal operations that primarily provide services to units within the university. They are expected to generate revenue from the services provided and to cover the expenses incurred to deliver the services. Rates are adjusted periodically to minimize differences between revenues and expenses. Any negative fund balances are subsidized by Education & General funds. In total, Service Center revenues are expected to decrease \$540 thousand from fiscal year 2016, while Expenses are projected to increase by \$287 thousand.

Infrastructure Services:

This fund records the transactions related to telecommunications expenses incurred by OSU operations. Telecom provides and maintains a host of local and long distance phone services and equipment including cellular phones, pagers, voicemail, data network connections, wireless network, maintenance of the physical wire plant on campus, and audio and video conference capabilities.

Printing & Mailing:

This fund records financial transactions related to printing and mailing services provided primarily to OSU departments. Printing and Mailing also provides services to customers outside of OSU.

Motor Pool:

The fund records financial transactions related to vehicle rental and repair services provided primarily to OSU department personnel.

Client Services:

This fund records the financial transactions related to the services provided by the Community Network and the OSU Computer Helpdesk.

Miscellaneous Service Centers:

These funds include the following operations: Advanced Media Presentation Services, Animal Isolation Lab, Campus ID System, Chemistry Stores, Desktop Services, Electron Microscopy, Forestry Quantitative Science LAN, Lab Animal Services, Mass Spectrometer, Statistical Services, Sterile Mouse Program, and Surplus Property.
