

CAMPUS PLANNING COMMITTEE RECOMMENDATION

TO	Mike Green, Vice President for Finance and Administration
CC	Paul Odenthal, Senior Associate Vice President for Administration; Libby Ramirez, University Architect & Capital Resources Manager
FROM	Bob Richardson, University Land Use Planning Manager
DATE	December 31, 2019
SUBJECT	Softball Hitting Building, Schematic Design Recommendation

Issue / Request

The Vice President for Finance and Administration is requested to consider the Campus Planning Committee's (CPC) recommendation to approve the Softball Hitting Building Schematic Design approval request, and make a decision regarding this request.

Discussion

The proposed building is approximately 3,200 sq. ft. It will be located along the third base side of the softball stadium, and it will serve as a year-round hitting practice facility as well as a bull pen during games.

On December 18, 2019, the CPC considered the Schematic Design approval request. After review of the staff analysis and discussion, the CPC found the proposal consistent with applicable Campus Master Plan policies and recommended Schematic Design Approval. The CPC also identified several items for the project team to address or consider in the next design phases. Those items are listed below.

Items to Address

1. An exterior wall light should be provided at the pedestrian entrance on the north elevation. (5.2.g)
2. The pedestrian entrance on the north elevation should be highlighted with a treatment (e.g., accent surround, lights, canopy, window) to make it more readily recognizable and inviting to users of the building. (5.2.h.9)

Recommendation

The OSU Vice President for Finance and Administration may approve, deny, modify, or forward a request to the University Cabinet for further consideration. The CPC recommended Schematic Design approval with consideration of the items noted above.

Review and Concur

I concur with the Campus Planning Committee's recommendations and approve the Schematic Design approval request.
