

We have discovered some errors in a few CORE reports and have asked that they be 'turned off' until we can resolve the issues. The data being displayed is not correct. We have asked that the following reports be turned off:

- FIN0066 eProcurement Permissions

- FIN0067 eProcurement Requestors

- FIN0068 eProcurement Requestors by Department

I will be working with the CORE team to get these resolved and back in production for campus.
