FISHER SCIENTIFIC PUNCHOUT USER GUIDE

GETTING STARTED

To begin online ordering, punchout to **fishersci.com**. Once in the punchout session, you may access features from either the My Account dropdown menu located in the upper right-hand corner of the screen or the links on the left-side banner.

MORE THAN ONE WAY TO FIND PRODUCTS

You can search for products using:

- Product name
- Product type
- Fisher Scientific catalog number
- Supplier part number
- Common chemical name
- Synonym

TIP: If you misspell a product, **fishersci.com** will offer a suggestion. For any search that yields few or no results and a close match item is found, a “Did You Mean?” suggestion is offered.

RELATED SEARCHES

- Returns the top five product categories that match the search term
- A quick, easy way to refine results to a specific classification of products

SEARCH REFINEMENTS

- Powerful refinement options allow you to narrow the displayed results
 - o Special Interests include:
 - Environmentally friendly
 - Get IT program
 - Homeland security
 - Science education
 - First choice
 - Preferred products
 - o Product categories
 - o Suppliers
 - o Applications

TIP: Drill down into product categories for additional refinements (size, capacity, etc.) to further assist in finding exactly the products that you need.

SEE A LITTLE ... OR A LOT

- Expand and collapse result descriptions
- Terms matching search criteria are highlighted in yellow

TIP: The Display Preferences menu turns on and off highlighting, catalog numbers and product descriptions.

FISHER SCIENTIFIC PUNCHOUT USER GUIDE

CUSTOM OLIGO CONFIGURATOR

Through the **fishersci.com punchout**, you'll have access to the complete Eurofins MWG Operon portfolio of high-quality oligos, including a full range of unmodified and modified oligos in a variety of scales, concentrations, formats and purification options—all with the low mutation rate you expect.

1. GETTING STARTED

Click the **RNAi Reagents, qPCR Assays, Oligo Synthesis** button on the left side of the home page.

2. CUSTOMIZE YOUR OLIGOS

Select **Customize** to begin creating your oligos.

3. BUILD YOUR OLIGOS

Enter the information required, including:

- Sequence name
- Sequence
- Modifications
- Scale
- Purification

Then click **Add to Order**.

4. REVIEW YOUR ORDER

Check the specifications listed under **Your Order**.

Select **Edit** or **Delete** to change or remove this item.

Enter additional information to build more oligos, or click on **Review Pricing** to continue.

5. REVIEW PRICING

Click **Itemized Pricing** for details on a specific oligo or select **Expand All** to see additional details about every oligo; use **Edit Order** to make corrections. To continue to checkout, select **Add to Cart**.

6. SHOPPING CART

Continue to add items as needed. Select **Checkout Shopping Cart** to complete your purchase.

This will take you back to your purchasing application where you can assign your cart or place your order. You'll receive your oligos within 48 hours of WorkFlow completion!

Ordering from Fisher Scientific

Online ordering through the Fisher Web Site is easy and quick. The navigation above will help you navigate through the following order functions:

- **Place Rapid Order:** Purchase items by typing catalog number, quantity, and unit of measure.
- **View Shopping Cart:** View the contents of your current order.
- **Place WebReq:** Request Third Party products from Fisher.
- **Review WebReq:** Review your Third Party requests.
- **Hotlists:** Add your most frequently requested items to your customized hotlists.
- **Templates:** Add previously saved orders to your shopping cart.
- **Review Requisitions:** When you request a quote, it's available online for review as soon as it has been prepared saving you time and effort.
- **View Orders:** Review requisitions you've submitted through our web site, plus those waiting for your approval. Check the status of all orders on your account, regardless of order entry source.

RNAi Reagents, qPCR Assays, Oligo Synthesis

Life science research requires products with exacting specifications. If you can't find the product you need, let Fisher Scientific help you find the solution that meets your requirements—from oligo design to custom RNA products including siRNA, miRNA and many more.

Custom Oligos

Oligonucleotide Synthesis Service provides custom synthesis of affordable, high-quality oligonucleotides, including a full range of longer and modified oligos in a variety of scales, concentrations, formats, and purification levels. [Customize](#)

FISHER SCIENTIFIC PUNCHOUT USER GUIDE

ANTIBODIES ADVANCED SEARCH

Through **fishersci.com**, you'll have the ability to find antibodies more quickly. Our antibodies search engine allows you to select the right antibody for your research by refining the search based on your specific requirements.

1. GETTING STARTED

Click the **Antibodies** link on the left side of any page under Custom Searches.

Ordering from Fisher Scientific

Online ordering through the Fisher Web Site is easy and quick. The navigation above will help you navigate through the following order functions:

- Place Rapid Order:** Purchase items by typing catalog number, quantity, and unit of measure.
- View Shopping Cart:** View the contents of your current order.
- Place WebReq:** Request Third Party products from Fisher.
- Review WebReq:** Review your Third Party requests.
- Hotlists:** Add your most frequently requested items to your customized hotlists.
- Templates:** Add previously saved orders to your shopping cart.
- Quotes:** When you request a quote, it's available online for review as soon as it has been prepared saving you time and effort.
- Review Requisitions:** Review requisitions you've submitted through our web site, plus those waiting for your approval.
- View Orders:** Check the status of all orders on your account, regardless of order entry source.

2. USING THE ANTIBODIES-SPECIFIC SEARCH ENGINE

Type your search criteria in the search field.

Use the dropdown menu to filter your search from the options listed.

Check the box next to each desired refinement.

Click the **Submit** button to initiate your search.

Advanced Antibodies Search

Fisher Scientific has more than 50,000 antibodies to choose from - but you only need one. Our antibodies search engine allows you to select the right antibody for your research by narrowing your search based on your specific requirements, including reactivity, host or research application.

Search by Antigen, Gene Symbol, Gene Accession Number, Clone Name, Catalog Number or Vendor Number.

Antibodies Search 1 Antitrypsin, Ab-1

Select Optional Search Criteria

Antibody Type: Primary Secondary

Classification: Monoclonal Polyclonal

Select Reactivity... Select Host...

Select Antibody Applications... Select Format...

Select Label... Select Research Discipline...

Selected Search Criteria:
No criteria selected.

Submit

3. REVIEWING ANTIBODIES SEARCH RESULTS

Click on the **Info** icon next to the Reactivity and Applications headings to display the abbreviation key, which lists the abbreviations and their corresponding definitions.

Click the **catalog number** to learn more about an antibody.

The refinement tool located on the left side of the page allows you to add or remove as many additional parameters as you like and to mix and match for each refinement grouping. To activate a refinement option, click the desired refinement title.

Available refinement categories include:

- Supplier
- Antibody Type
- Class
- Antibody Applications
- Reactivity
- Host
- Label
- Research Discipline
- Format
- Isotype
- Regulatory Status
- Category

Antibodies Search: -1 Antitrypsin, Ab-1

Your Antibody Results: 6 item(s)

Antigen	Supplier Name	Cat #	Supplier #	Host	Class.	React. (f)	Size	Label	Apps. (f)
s1-Antitrypsin Ab-1	Thermo Scientific Lab Vision	BB367PCS	FB-367-PCS	Rabbit	Polyclonal	Bb, Etl, Hs, M, Mx	5 Slides	Unlabeled	IHC (P)
		BB367R	FB-367-R7	Rabbit	Polyclonal	Bb, Etl, Hs, M, Mx	7mL	Unlabeled	IHC (P)
		BB367A	FB-367-A	Rabbit	Polyclonal	Bb, Etl, Hs, M, Mx, Nfip	1mL	Unlabeled	IHC (P)
		BB367A1	FB-367-A1	Rabbit	Polyclonal	Bb, Etl, Hs, M, Nfip	500uL	Unlabeled	IHC (P)

4. VIEW PRICING AND ADD TO CART

View pricing for an antibody and also add it to your cart from the search results page.

Click the **Pricing** link on the far right to view the current price.

Enter a number in the **Quantity** field and then click **Add to Cart**.

Items may also be added to your **hotlists** from the search results page.

5. SHOPPING CART

Continue to add items as needed. Select **View Cart** from the left side of the page and then **Checkout Shopping Cart** to complete your purchasing application.

FISHER SCIENTIFIC PUNCHOUT USER GUIDE

RNAi REAGENTS AND qPCR GENE EXPRESSION ASSAY CONFIGURATOR

Through **fishersci.com**, you'll have access to the most complete, technologically advanced portfolio of tools for gene silencing and detection. Order pre-designed Thermo Scientific Dharmacon siRNA, miRNA, shRNA and qPCR assays as well as custom siRNA and RNA synthesis.

1. GETTING STARTED

Click the **RNAi Reagents, qPCR Assays, Oligo Synthesis** button on the left side of the home page.

The screenshot shows the Fisher Scientific homepage. At the top, there's a navigation bar with 'Fisher Scientific' logo, 'Welcome Ariba Punchout User', 'My Account', 'Rapid Order', and 'Shopping Cart'. Below this is a search bar and a navigation menu with categories like 'SCIENTIFIC', 'SAFETY', 'HEALTHCARE', and 'SCIENCE EDUCATION'. The main content area is titled 'Ordering from Fisher Scientific' and lists several order functions: 'Place Rapid Order', 'View Shopping Cart', 'Place WebReq', 'Review WebReq', 'Request Third Party products from Fisher', 'Review your Third Party requests', 'Hotlists', 'Templates', 'Review Requisitions', and 'View Orders'. A sidebar on the left offers 'CUSTOM SEARCHES' (Antibodies, MSDS Search, Product Certificates, Substructure) and 'BROWSE BY' (Product, Supplier, Application). A shopping cart icon shows 'No items in cart'.

2. ORDER YOUR RNAi REAGENTS AND qPCR ASSAYS

Select **Order** to search and order Genomics products.

This screenshot shows the 'RNAi Reagents, qPCR Assays, Oligo Synthesis' section. The main heading is 'RNAi Reagents, qPCR Assays, Oligo Synthesis'. Below it, there's a sub-heading 'Custom Oligos' with a 'Customize' button. Another sub-heading is 'RNAi Reagents and qPCR Assays' with an 'Order' button. The text describes the services: 'Life science research requires products with exacting specifications. If you can't find the product you need, let Fisher Scientific help you find the solution that meets your requirements from oligo design to custom RNA products including siRNA, miRNA and many more.' and 'Oligonucleotide Synthesis Service provides custom synthesis of affordable, high-quality oligonucleotides, including a full range of longmers and modified oligos in a variety of scales, concentrations, formats, and purification levels.' The sidebar on the left is similar to the homepage screenshot.

3. USING THE GENOMICS-SPECIFIC SEARCH AND ORDER ENGINE

Type your search criteria in the search field. Use one of the search terms listed to the right of the search box (e.g., Ref Seq Accession, Gene ID, etc.). For search tips, click on the (?) icon, and additional information will appear in a new window.

OR

CREATE CUSTOM PRODUCTS

Design **Customized siRNA** via the siDESIGN Center. Access the **siDESIGN Center** by clicking on the link under Tools on the right side of the page or by hovering over the Products menu item at the top of the page and selecting siDESIGN Center under siRNA Research Products.

Design **Customized RNA and siRNA Synthesis**. Access the **Custom Synthesis** tool by clicking on the link under Products on the right side of the page or by hovering over the Products menu item at the top of the page and selecting the Custom Synthesis category.

This screenshot shows the Thermo Scientific Dharmacon RNAi Technologies website. The main heading is 'The most complete, technologically advanced portfolio of tools for RNAi'. Below it, there's a sub-heading 'siRNA, shRNA and microRNA collections'. A search bar is present with a search button. To the right, there's a 'Products' menu with options like 'GENEus Search', 'siRNA', 'miRNA', 'shRNA', 'qPCR Assays', 'RNA Controls', 'Transfection', 'Custom Synthesis', and 'Auxiliary Reagents'. There's also a 'Tools' menu with 'Find Product Documentation' and 'Go to the siDESIGN Center'. A search results section is visible, showing search terms like 'Ref Seq Accession (e.g. NM_181838, XM_240330)', 'Gene ID (e.g. 672)', 'Gene Symbol (e.g. BRCA1)', 'Gene Description (e.g. cell division)', 'Sanger ID or Accession (e.g. hsa-let-7b, MI000063)', and 'Catalog No. (e.g. MQ-003478-00)'. A 'Genomics Products (0)' section shows an 'Order Subtotal: \$0.00' and a 'View Genomics Order' button.

FISHER SCIENTIFIC PUNCHOUT USER GUIDE
