From the time I committed to creating videos on Monopoly in October through the middle of December, I collected 3,200 followers via ads. It was a nice foundation.

The bad: I tried really hard to target precisely to build my audience with relevant people. All indications are that this wasn't successful. It was mostly numbers padding (the relevant followers would come organically).

The good: We can knock vanity metrics all we want, but it does mean something on Monopoly if someone has a following. It surely helped convince some relevant people that I was worth following.

You can also spend real-life money to get more Dice, but if you'd rather not do that you can just use Monopoly Go Free Dice Links instead.
